

Workstream Design

VKPP Workstream:
Strategic Intent:

Analytical Capability

Generate a shared understanding of where the most significant gaps in practice and knowledge are nationally. Collaborate with forces and other relevant stakeholders to influence the design and implementation of solutions in priority areas.

	Pillar 1	Pillar 2	Pillar 3	Pillar 4	Pillar 5
<u>Priorities</u>	Improve data quality	Enhance the national picture	Develop standards & guidance	Utilise new analytical disciplines	Share learning
	Better understand and improve the quality of policing data most valuable in identifying vulnerability threats.	Bring local data and insight together for a more informed national perspective.	Develop more national guidance & standards to support analytical practitioners.	Align analysis requirements more specifically to the new range of analytical disciplines available.	Contribute to formal and structured approaches to sharing operational learning within and across forces.
<u>Cross-Cutting Themes</u>	Equality, Diversity & Inclusion				
	Closer alignment of 'national strategic' and 'local tactical' priorities				
	More (and earlier) collaboration between academic researchers and police analytical practitioners				
	Continue to develop detail relating to NVAP aims and objectives & provide more direction and support to practitioners.				
	Move away from a fragmented, single threat 'strand' approach to vulnerability				

Vulnerability Knowledge
& Practice Programme
